FLOWER ORDERING

ORDER DATES

Flowers should be ordered 2-3 full weeks in advance for your special occasion. Products may be limited if orders are placed shorter than 2 weeks in advance. Holiday ordering requires further advanced notice.

CHOOSING VARIETIES

The websites below indicate the varieties that UFD has access to. There is a multitude of varieties, for example, roses, but the farms we buy from will choose their favourite varieties to grow. We limit the number of farms we buy from in order to develop good relationships with them (just like you do with us!).

We are by no means limited to this selection of flowers, these websites are to be used as a helpful guide. Keep in mind while searching the websites below that we don't buy every product listed on every website, or every variety listed. We may direct you to other sources, or have to ask you to commit to a full case. Always remember, flexibility is key. Specific varieties are sometimes hard to get, but general colours are usually easier to find.
